

PELICAN HRM

NAME CHANGE NOTES

Please make the following changes to the Galaxy /Sapient Medical **Azure** and **SQL database** accounts.

The name of the ERP is now **Pelican HRM**

The Pelican ERP will have several modules that make up its entirety.

1. Super Admin
2. HRM
3. CRM 1 (Candidate CRM)
4. CRM 2 (Client CRM)
5. CRM 3 (Patient CRM)

The URL for this software project is the following: <https://www.pelicanhrm.com>

The email to use for this project is as follows: donotreply@pelicanhrm.com

EMAIL

Email Link: <https://login.live.com/>

Email User ID: donotreply@pelicanhrm.com

Email PW: Carpenter50##50

Please do the following perform the following tasks.

1. Change the name of the **ERP, SQL Database, SQL Server** from **Sapient Medical** to **Pelican**.
2. Change the **URL** to for the web app from **Sapient Medical** to **Pelican**
3. Change all the **Resource Group** names in **Azure** from **Galaxy 1** to **Pelican 1**
4. Change all name references on the front end and back end to **Pelican**.
5. Any other adjustments to properly facility these changes or adjustments.

Please set up and arrange the ERP to reflect that the **Pelican HRM** is the main software that the Super Admin and all users, including candidates will log into. Make sure this is the name they will see and not Sapient Medical. Sapient Medical is a client or customer of Pelican CRM. See the diagram below.
